Medal Tally in
Summer and Wi..

It is interesting to note that even though the medal count is less in the 1904 Olympics with 6 medals, as compared to the 2020 Olympics with 24 medals, The final rank was #4 in 1904 St.Louis Olympics and #11 in the recent 2020 Tokyo Olympics

Canada has sent athletes to every Winter Olympic Games and almost every Summer Olympic Games since its debut at the 1900 games with the exception of the 1980 Summer Olympics, which it boycotted. Canada has won at least one medal at every Olympics in which it has competed.

Canada as Host

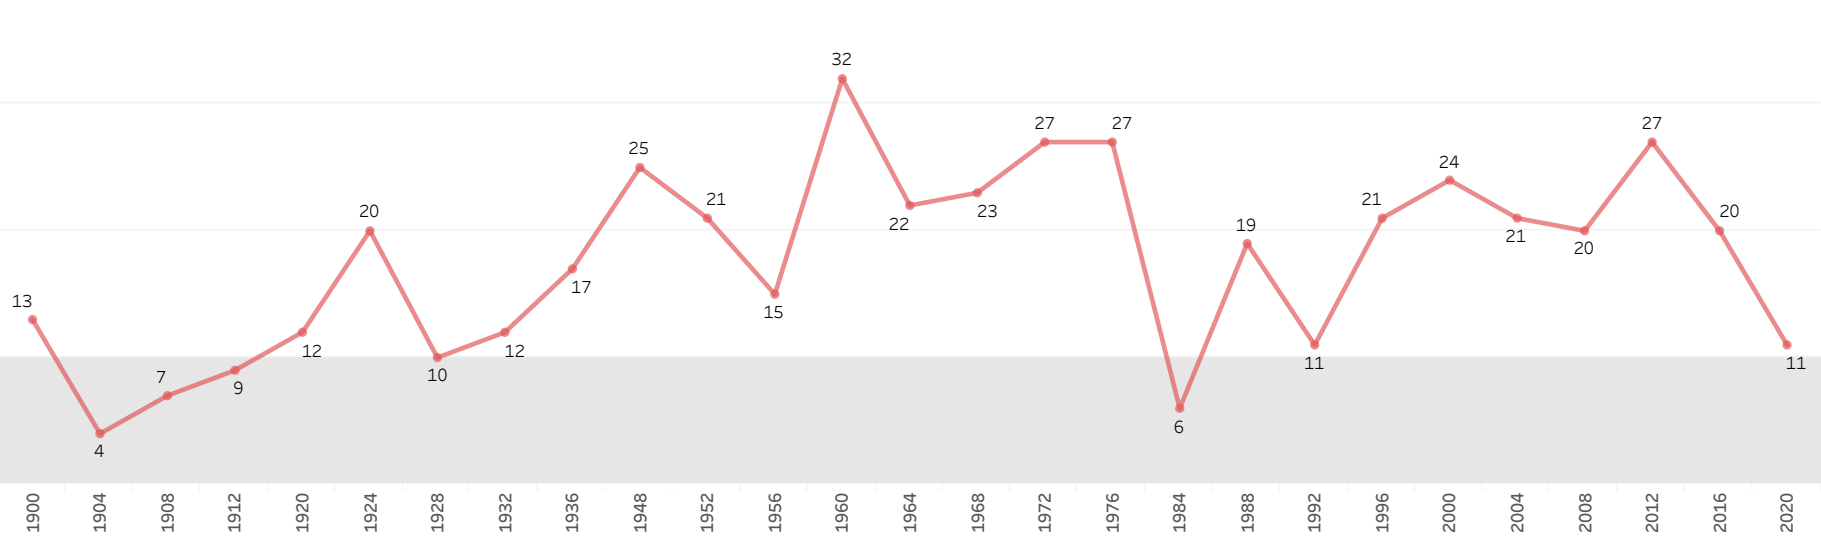

Canada's Medal Tally as Games Host (Winter)

Canada as so far hosted the Summer Olympics of 1976 and Winter Olympics for the years 1988 and 2010. As a host, Canada showed the best of it in the years 1988 and 2010, this performance increased gradually over years.

Undoubtedly, Canada is one of the country to watch for in the olympics, with its atheletes breaking records and bagging medals.

Greatest Olympian of all time!

Around 12000 to 15000 olympians from different countries and discipline particate and compete in each olympics. Only a few win a medal and among them a very few number of highly elite olympians win medals in two or more olympic games.

Michael Phelps, from United States has managed to won medals not in one olympics but four different olympic games held around the world. He had won a total of 16 medals which is highest in the history of olympics. He also holds record of winning highest Olympic gold medals and highest olympic medals in a single event.
